and Director of Technology, Daniel Short

Fall/Winter 2020

GAEL FRONT HEROES

Alumni on the frontlines of the COVID-19 pandemic

Class of 1974

Angelo Racaniello, MD

Dr. Racaniello, Board Certified Emergency Room Physician, has been practicing medicine since 1983 in some of the busiest ERs in the nation treating tens of thousands of patients over the years. He headed the entire emergency room staff at JFK Hospital in Edison, NJ since 1995.

In January, Dr. Racaniello became a full time doctor at CityMD in Clifton, NJ. The walk in emergency medical facility was the first stop for dozens of positive Covid19 patients. Dr. Racaniello and his staff needed to screen and treat those infected and protect themselves and others from exposure to the deadly virus. He determined whether a patient should be admitted into a hospital or quarantined at home during recovery. It was critical to evaluate the pre-existing conditions and other risk factors while making these crucial decisions. Bergen and Passaic counties were New Jersey's hot spots of Corona Virus for months, and his practice operated 24 hours a day on the front lines.

Class of 2006 & Class of 2011

Michael and Kevin Cribben

Michael graduated in 2006 and Kevin graduated in 2011. Michael played football at St. Mary's and was affectionately known as "Lefty". Kevin, before he was a student at St. Mary's was the water boy for the football and known as "Righty". Both of my brothers work as first responders. They are firefighters for the Hackensack Fire Department. Michael was hired in 2015 and a Kevin was hired last year. Both are state certified EMTs and answered several calls during this pandemic. In addition to being firefighters in Hackensack, both boys are volunteer firefighters and chiefs of the Wood Ridge fire department. Michael is in his first term as head chief and Kevin is the youngest second assistant chief in the department's history. They have been answering and running several medical calls and fire calls during this pandemic while doing everything in their power to keep the members of the department and town's people safe.

Class of 2003

Brandon Graham

As a Police Officer in Teaneck, you can be sent into uncontrolled environments, which can be unnerving especially during a pandemic. At these moments, it's critical to remember the importance of protecting the public and to be there for your fellow officers.

The recent unfortunate events involving police brutality have proven to be a difficult time for this country. As an African American Police Officer, my feelings towards this matter can be conflicted. I proudly stand with my brothers and sisters in blue and I also recognize that there are people, who I am sworn to serve, who don't feel they are treated with justice and equality. Moving forward, I will continue to use the lessons learned as a Gael in an effort to become a better Police Officer and make a difference.

Class of 2006

Dr. Mohit Mody

It's an honor to care for patients and their families and to help them navigate through these very challenging times. I am fighting for the hope that someday we can overcome this and get back to our normal lives in which we don't take the small things for granted. Healthcare professionals everywhere are stepping up instead of backing down. Greatly appreciate the outpouring of love and support from communities all around the world.

November, 2020

Dear Alumni of Saint Mary High School,

Who is NOT praying for the day when all we say or do does NOT begin with references to the Coronavirus pandemic that has so negatively affected every aspect of our lives? May all who have contracted this dreadful disease, those whose lives were cut short by it, and all their loved ones, know of our prayerful consolation and support for all who are trying to conquer Covid-19 and all infirmities. However, it has highlighted how interconnected we all are, and how, in almost all of our actions, we have a profound impact on each other. And is this not also true of what those who are gifted with a Catholic Education should be able to do? Are we willing to do all we can so that our Catholic Faith can have the same impact on every aspect of life as does this virus?

In 1975, Catholic hymn writer Dan Schutte released his version of the word of God that comes to us through the Book of Psalms:

*"God is our refuge and our strength, an ever-present help in distress.
Thus we do not fear, though earth be shaken
and mountains quake to the depths of the sea,
Though its waters rage and foam and mountains totter at its surging."
[Psalm 46:2-4]*

We paraphrase this in the refrain of Schutte's hymn, *'Though the Mountains May Fall:'*

*"Though the mountains may fall and the hills turn to dust
Yet the love of the Lord will stand As a shelter for all who will call on his name
Sing the praise and the glory of God."*

God is relying on all who currently receive a *Gael Catholic Education*, the administration, faculty and staff of *SMHS*, all the alumni, and all who, in these challenging times, support our *Scholarship Fund* - to help those who struggle with this world's woes to look above, to the God who alone can help us get through any and everything. For it is only by God's grace - and the generosity of people like you - that *SMHS's* doors are still open; contact our *Development Director*, Michael Sheridan, to arrange for a tour to see all we are still able to do! May our *Blessed Mother, Our Lady of the Rosary, Health of the Sick*, intercede for you; may your sacrifices to support *Catholic Education*, our Alumni Association, our principal, Tara Brunt, our faculty, staff and students, the Board of Directors, and all our benefactors, help us rise above every challenge so we can *'Sing the praise and the glory of God!'*

With God's love and my prayers,

*Very Reverend Michael J. Kreder, V.F., KCHS
Pastor*

GAEL FRONT HEROES, *continued*

Class of 2016

Michael Peltyczyn

I have been working on the front lines during the Covid19 Pandemic in two very different, but both very important roles. First I am a manager at a busy Shop Rite in Hillsdale, NJ. It is my responsibility to ensure the safety of our workers and customers. Providing protective equipment and training for social distancing is important for our essential employees who keep the store operational. Overseeing proper cleaning and disinfecting of the entire facility is another enormous task. Coordinating new protocols for customers is also an important part of my daily routine.

I am also a firefighter in Hillsdale. Our staff was reduced significantly because older "high risk" members could not make emergency calls. Call volume rose five times due to so many people at home 24 hours a day. Most emergencies are home hazards such as carbon monoxide detection, electrical problems, and cooking accidents requiring a rapid response in full protective gear to avoid contact with infected persons.

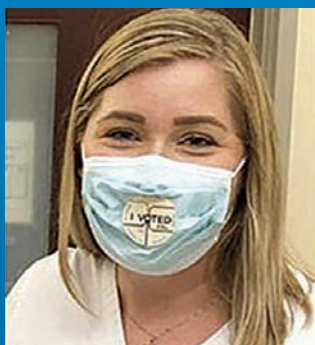

Class of 1967

Denise Sheridan Lemega

I have been a social worker at Morristown Medical Center for 41 years. The policy to isolate the patients creates unprecedented difficulties. Families are suffering the trauma of not being permitted to see, speak, or hold their loved ones while making life and death treatment decisions. Tragically, patients are dying alone, and families are devastated.

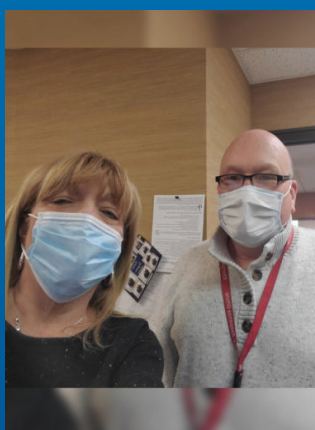

As the Social Worker on the HealthCare Team, my priority is to ensure that patients and their loved ones stay connected for emotional support and care. I create a bridge to link them to each other and with the amazing doctors and nurses on the front lines. With technology, I arrange family visits and prayers with our Spiritual Team by cell phone and Zoom. Often it becomes a chance to say goodbye which brings peace.

Class of 2005

Therese Zdanowicz Roselli

Therese earned her Bachelor of Science in Nursing from Ramapo College in 2009. Therese is a Nurse Clinician in the Bone Marrow Transplant Unit at Weill-Cornell Medical Center New York Presbyterian since 2009. She is an Oncology Certified Nurse (ONC), who has participated in creating intense educational programs to train other oncology nurses in the highly specialized care of The Bone Marrow Transplant patient. Therese has achieved the titles of Charge Nurse and Nurse Preceptor. During the COVID-19 Pandemic, Nurse Roselli has been caring for COVID positive patients with compassion and passion in the epicenter of the pandemic. Therese has also found the time to volunteer at the Rutherford Health Department during this crisis to assist them with contact tracing, counseling and data entry.

Class of 1972 & Alumni Parent & School Nurse

Brian O'Keefe and Janet Calhoun

Brian '72, has been with the Rutherford Health Department for the last 42 years and serves as the borough's health official and registrar of vital statistics. Janet has been a Public Health Nurse for the Rutherford Health Department for over twenty years. Janet is also the school nurse for SMHS. They have been devoting the bulk of their time on the COVID-19 pandemic. It has been a combined effort following up with residents on their positive COVID-19 test results and providing additional guidance on how to further reduce the spread of the transmission of the virus in our community. They have extended their time and talent to the borough and have been able to properly manage the current case load in Rutherford. Their prior working knowledge of the NJ State Department of Health Communicable Disease Reporting and Surveillance System (CDRSS), where all test results for the COVID-19 are entered state wide, has allowed the governing body to provide daily updates of the number of new COVID-19 positive test results in real time to the residents of Rutherford.

WELCOME TO A NEW YEAR AT ST. MARY HIGH SCHOOL!

The opening of school this year has been unprecedented. It took all the faculty and staff to brainstorm and think of how to best serve the students at St. Mary as we followed all the protocols to keep everyone safe. We had meetings with the Archdiocese of Newark and the Rutherford Board of Health to determine the safe reopening of St. Mary High School and the 8th grade at The Academy at St. Mary. We needed to

evaluate our capacity to teach virtually as well as in person. We had to make sure everyone, students and staff, had the technology they needed to be successful. We had to have several plans in place to be able to quickly adapt to a Hybrid Model or Full Remote Learning. All aspects of school, curriculum, classrooms, cafeteria, athletics, activities, needed to continually be evaluated throughout the summer months.

The faculty and staff at St. Mary HS and Academy are second to none! They not only prepared like never before, but they also continue to adapt to the needs of the students daily. We are currently utilizing the Hybrid Model with many students electing to be Full Remote. This means the teachers are live streaming lessons every period every day. No matter how many years of teaching experience, this is a daily challenge that the faculty and staff are successfully meeting.

The motto of St. Mary High School, "Small, Personal, Catholic", has always been evident, but in these days of blended learning, this becomes even more obvious. The care and concern of every teacher and staff member for the students to be successful throughout this pandemic has been and continues to be extraordinary. Parents and students are so grateful for the personal attention their student is receiving. This is, and always will be, the hallmark of St. Mary High School. Let us keep each other in our prayers to be safe and healthy until we can all be together once again as a community.

Gratefully,
Tara Brunt, *Principal*

GAEL FRONT HEROES, *continued*

Class of 2006

Kate Motylinski

I'm a Mother/Baby nurse at Newark Beth Israel Medical Center. The past few months have definitely been challenging. When this all began, there wasn't much testing happening and we, the nurses, were at risk due to the lack of PPE and the unknown COVID status of the patients we were caring for. Nurses I work with were testing positive themselves, so I decided to send my husband and 2 year old son to live with my in-laws for a little over 2 weeks to keep them safe and to give me time to come up with a system of disinfecting before coming home. Being away from them was absolutely the most challenging part. Now, all mothers that come into Labor and Delivery get tested. All COVID positive moms are assigned to one nurse to keep our healthy moms safe and prevent cross contamination. PPE supplies are increasing and fortunately the number of covid + patients are decreasing. There's a light at the end of the tunnel! I encourage everyone to take proper precautions and not be too eager to jump outside as soon as we get the green light! I'm keeping my entire SM family in my prayers – we will get through this!

Class of 1982

Ann West Mueller

As the Clinical Coordinator in ICU, I have been working on the Frontlines of the Covid-19 Pandemic at Hackensack Meridian Mountainside Medical Center. This has been the most challenging time in my career as a nurse. I have been responsible for coordinating care for the patients in the ICU unit as well as other units that were opened up by the hospital to care for Covid-19 patients. Working throughout this pandemic wearing PPE, trying to keep in contact with the families of patients, and supporting my staff throughout this time has been most difficult for me. It is also amazing to see how through these difficult times we all have come together to reach out and help one another. To all of those men and women on the Frontlines I say "Thank You!" We will get through this together!

Class of 2002

Danielle Fox Fry

Danielle works as a nurse practitioner at NYU Langone Medical Center, in the Cardiothoracic Intensive Care Unit. In that role, Danielle has been working with doctors, nurses, and other healthcare professionals to directly treat COVID-19 patients. Danielle earned a Bachelors in Nursing from Felician College in 2007, a Masters of Nursing from NYU in 2012, and a Doctor of Nursing Practice from NYU in 2019. She is a member of the SMHS Class of 2002.

Class of 2004

Meghan Florio

Meghan is a 2004 graduate of St. Mary High School. She is an oncology nurse at Memorial Sloan Kettering Bergen. She has been working on the frontline, administering cancer treatment to her patients, some of whom have also been diagnosed with Covid-19. Meghan has been working diligently during the pandemic, continuing to give her patients necessary oncology treatments and protect them from the virus.

Class of 1998

Caroline Clark

As a Clinical Nurse Specialist in an Oncology setting, I've been coordinating essential cancer care and supporting nursing staff in infection control policy and procedures to keep patients and staff safe. We are extremely grateful that you are helping to flatten the curve.

REMOTE LEARNING

The preparation to create an ideal learning experience for our students this year required the teachers to study ways to adapt their instructional skills to accommodate whatever model we were able to provide for the beginning of school and beyond. Online resources, textbooks and workbooks were evaluated and ordered to bridge the gap between in-person learning and virtual learning. The schedule of classes was revised many times before September to balance sections

and allow for the proper social distancing in classrooms. Larger areas of the building such as the auditorium and cafeteria were transformed into classrooms. Several teachers in the high school prepared to welcome the 8th grade students into classes in Art, Spanish, Algebra I Honors, Physical Education and Computer Technology.

As we move through the school year, the plans that were designed in the summer are evaluated weekly and adjustments are made to make certain our faculty, staff and students continue to work and learn in a safe environment.

Thank you,
Marcella Schrank, Vice Principal

INTERNET-BASED SOLUTIONS

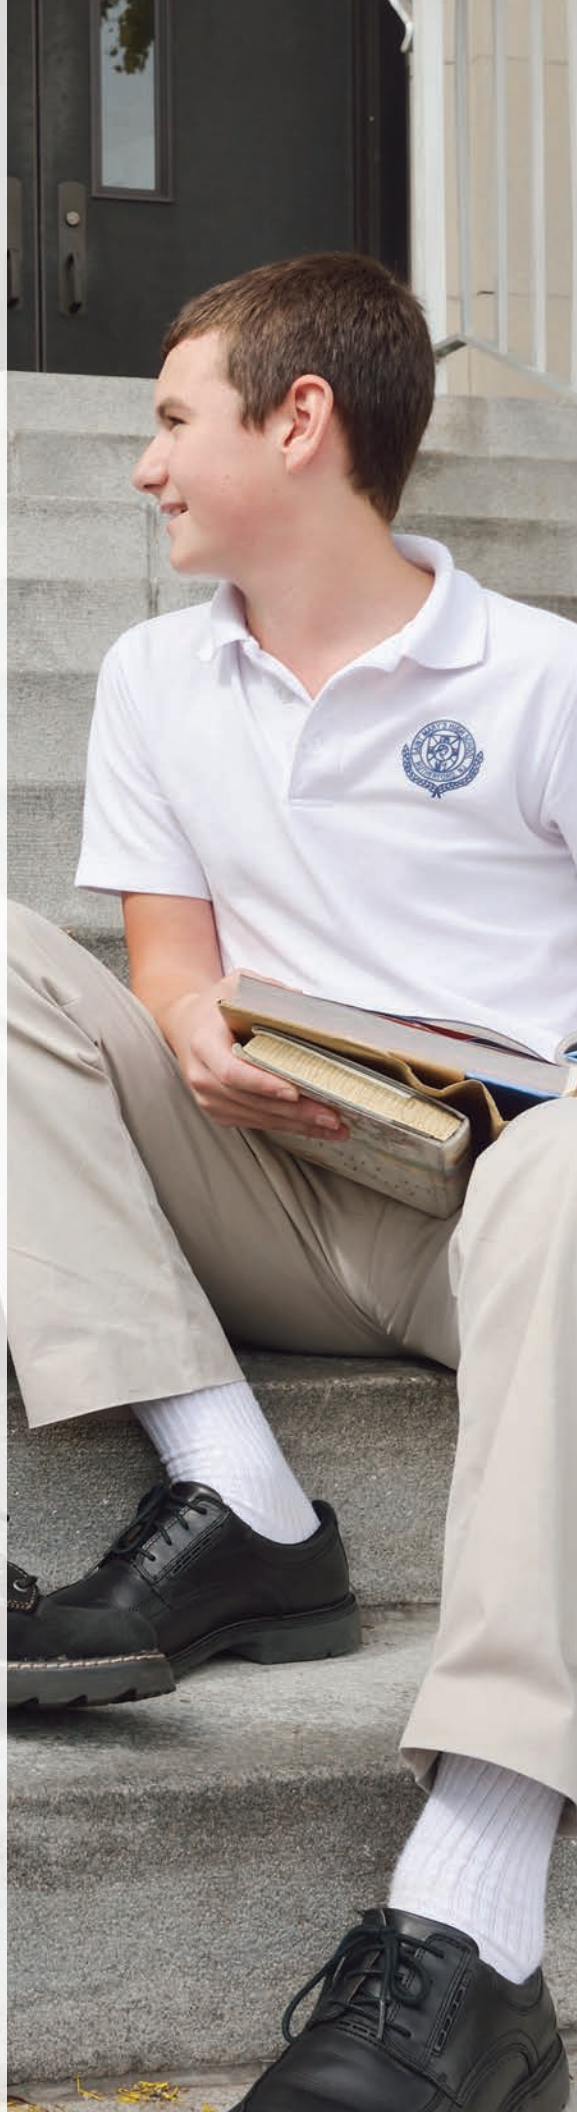

As the Technology Director for St. Mary High School, it was important to find the right platform that enabled our students to continue receiving an education remotely. When I started at SMHS in 2017, one of the first projects I undertook was transitioning the faculty and students to Google Apps for Education. When we received word that we were going to begin remote instruction in March, the foundation for everything we would need was already in place.

Our students receive their assignments and turn them in through Google Classroom, our teachers hold virtual classes through Google Meet, and we can record our meetings for students who were absent for their classes. There are still obstacles to overcome, such as internet and device issues, and ensuring the students show up to class. The pandemic has put everyone's technical skills to the test as we moved to a cloud-based system for faculty device management and document storage. We are becoming more reliant on these internet-based solutions but everyone is taking it in stride and working to their absolute best ability.

I hope that you all stay safe and healthy.

Thank you,
Dan Short, Director of Technology

GAEL FRONT HEROES, *continued*

Class of 1974

Cheryl Forst

To all my colleagues, for all the lives you touch every day. It is a calling, a career, and a blessing to have been chosen to do this job! I am honored to be a nurse! During the pandemic I am working at Rutgers, The State University of NJ as the Director of Human Subjects Protection Program – I have been busy assisting with fast tracking the COVID-19 research studies to get approval for testing, treatments, and data collection keeping the study participants safe and protecting them from any harm is my main objective. I report to Hackensack Medical Center as a Nursing Supervisor a few evenings a week where I help resolve matters with patients, nursing staff and families of the COVID-19 patients. It is sad and difficult most days. Wearing the PPE for 8-10 hours is tough, but I am staying safe. I report to the command center to coordinate care and staff. We hold on to the happy moments when patients are released home and on their way to recovery.

Class of 1970

Catherine Hanlon, MD

It has been a difficult six weeks working ER during the epidemic. Aside from the physical fatigue of working 12 hour shifts in all the personal protection gear, the social isolation from not being around family and friends – our typical coping mechanisms – have added to the stress. Watching other doctors and nurses contract the illness has been emotionally difficult, although any staff members who have contracted the virus have to my knowledge recovered. I read with sadness the passing of Pete DeLuise '74 from COVID. As of now the numbers are decreasing – the curve is not just flattening it's going down! I am hoping in the next 2-4 weeks it will continue to improve and we can start resuming our lives in June, even if we have to continue to mask and glove in public for a while. I am encouraged by how well everyone has helped the staff and community by pulling together in these times. Why is it that it takes the worst to bring out our best....? Stay safe, this too shall pass.

Class of 1984

Mayor Frank Nunziato

I was honored to be elected Mayor of Rutherford this past November and it has been a privilege to witness my hometown's response to the COVID-19 pandemic first-hand. The speed and agility with which our government, police and first responders reacted to this unimaginable situation has, in a strange way, reminded me of simpler times at St. Mary High School. As a junior, I was lucky enough to be part of a football team that, with just a handful of players and against all odds, worked together to win more games than anyone would have predicted. That year taught me the importance of teamwork and how the right players, with the right work ethic, can make a seemingly impossible situation possible. These past two months, Rutherford has filled me with the same pride I once found as a Gael. I'd like to thank all the players who have been part of my "team" since March and look forward to the happy times yet to come.

Class of 1992

Chief Ed Kerr

As the Police Chief of a resort shore town, I have had many new challenges arise during this pandemic. We always increase our staff to patrol the beaches once they open for the season. However, with the Monmouth County Police Academy closed, many of these officers are not available. This has meant longer hours and many schedule adjustments for our force.

Another challenge is keeping my officers as safe as possible. The simplest of protocols, such as procedures for responding to a First Aid call, all had to be revised to include new safety measures to keep our officers and the public safe.

Protecting the public has always been our job as Police Officers, but this pandemic has brought to light the importance of protecting everyone's health.

ANNUAL APPEAL

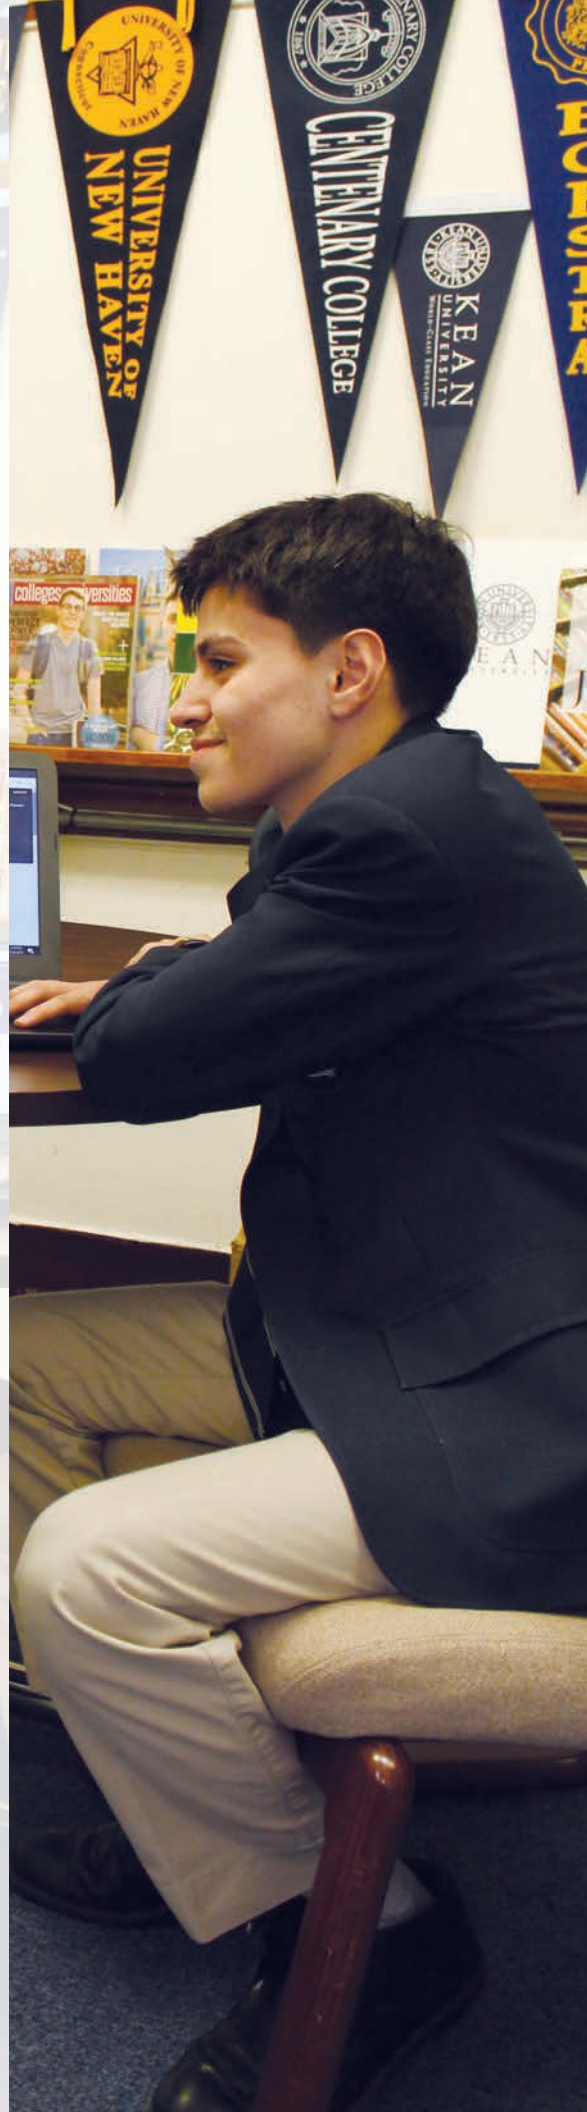

I hope this publication finds everyone safe & well. As an alumnus, class of '77, I am proud to write this annual appeal due to the many accomplishments our alumni and our alma-mater have achieved during these difficult times. When the pandemic hit and we were forced to cancel all our fund-raising events, the SM alumni responded with donations exceeding the year prior for the months of March, April, May and June.

In these trying times it is essential that strong leadership step up and make tough decisions and our principal, Mrs. Tara Brunt, has done just that. In August we rolled out a well-planned educational model for our parents and students to choose from between total remote learning and/or a combination of remote and in person learning. At the forefront of this success is the unbelievable dedication of our teachers who have been working double time to make it all possible. Under the leadership of Athletic Director Matt Stone '92, and in accordance with all state guidelines and restrictions, SM has continued its fall sports programs with coaches going above and beyond to keep our strong athletic tradition alive and well.

We should all stand a little taller knowing that our alma-mater, St. Mary High School is in good hands as we continue to face the odds, and defy them! However, due to the cancellation of our alumni fundraising events we are facing a significant loss of revenue. Homecoming weekend, the Hall of Fame Diner, the Spring Scholarship Gala, the Gael Open Golf Outing, all lost revenue for our alma-mater. This Annual Appeal is our chance to make up for that loss. SM Alumni are needed now more than ever.

Please do your part and contribute whatever you can to this Annual Fund Drive 2020/2021.

With Gael Pride,
Mike Sheridan, Alumni Director

HEROES IN EDUCATION

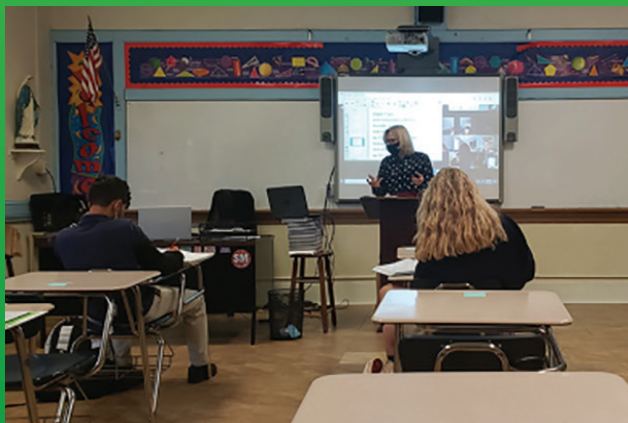

Meet the faculty who are enabling our students to continue learning.

Religion Department

Joseph Ziaya '08

Here is an example of how SM teachers are adapting to both in-person and virtual learning. Director of Admissions and Religion teacher, Joe Ziaya '08, is conducting one of his senior Religion classes in the SMHS Auditorium. Due to the size of some of his classes, he has to teach in the auditorium, lecture hall style. Equipped with a portable microphone and Google Meet, Joe presents his classes in a fun and dynamic way that helps his students understand the material during these tough times.

Math Department

Terry Buckley

The 2020-2021 school year at St. Mary High School only seems to have just gotten underway, but already it is set to be a test of both students and teachers alike. Teaching this year has been an exploration of a hybrid type of teaching which is completely new for all of us. It has presented with it its own challenges and obstacles, but I've been happy to see that we are making it work as best we can. Students both at home and in class have been cooperative and open-minded about this new type of class, and I've been proud to see how resilient the teaching staff has been. The hybrid class allows for students to participate in group study sessions and tutoring sessions after school, during evenings, and on weekends. Hopefully, we will all be going back to normal once we can all be safe.

Guidance Department

Ann Georgetti

As the Director of Guidance, I have been at St. Mary High School for 23 years. I never imagined in my career that my dining room table would become my new office along with a laptop. My hours of working extended beyond the normal school day as I needed to follow through with students after their virtual classes had ended. It was a positive experience for me as I was able to connect with students and their parents over the past three months. This time at home helped to strengthen the relationship between the counselor, student, and parent. If a student was experiencing something going on at home pertaining to their studies, I was easily able to reach out to them. An important part of this experience was becoming closer to my colleagues as I worked them when needed.

English Department

Kathleen Lucas

During a regular school day at St. Mary High School, I stand in the hallway in between all classes and greet the students as they pass. It is one of my favorite aspects of teaching because it offers personal connections between myself and the students while incorporating conversation. I continued this practice during our new remote learning way of life. As I took attendance during daily virtual classes, I casually chatted with the students. Keeping real connections with the students was important to me because we are all in the same situation. They got to know my dog, they learned that I had a noisy full house and they learned that I am a big proponent of getting fresh air! If they missed a virtual class, I followed up with an email to make sure all was well with them. Personal relationships are the cornerstone of St. Mary High School and I look forward to seeing the students and interacting with them again in the hallways!

PROTOCOLS FOR ATHLETICS

Last March High School Athletics changed in a way no one could have ever predicted. The entire 2020 Spring Season was canceled and the State of New Jersey took the entire summer introducing new guidelines and protocols to return student athletes back for their Fall Seasons in a safe manner. Director of Athletics Matt Stone, who also serves on the North Jersey Interscholastic Executive Committee as

President of the Meadowlands Division, has worked hand in hand with the NJSIAA, Bergen County and NJIC Conference to ensure our student athletes at St. Mary returned to play and are able to compete during this Fall Season.

Temperature checks, face coverings, Covid form screening, awareness, spectator restrictions and guidelines, Covid education for coaches, and countless meetings and webinars educating our community on the safe practices and protocols to get our athletes through the Fall Season and the remainder of the year have been on Coach Stone's plate throughout the summer and into the school year.

St. Mary High School will continue to be a leader in High School sports following all guidelines put forth by the NJSIAA and continue to represent all of our alumni in a manner we all are proud to be a GAEL.

WE ARE SM!

Matt Stone, Athletic Director

HEROES IN EDUCATION, *continued*

Math Department

Joseph Nitti

As a math teacher at St. Mary High School, I have one of the tougher subjects to teach. When we switched to online learning, it became a lot harder to teach the material. I do not have a whiteboard in my house that I can write out equations. At first, I recorded my lessons and uploaded them to Google Classroom. I eventually started using Google Meet to hold virtual classes but when I presented the equations, but it was hard for some students to see, especially for one of my students who went home to Korea (and has a 13 hour time difference). Through all the struggles, my students have persevered and shown that they are up for any challenge. They are a fantastic group of students who have endured so much in a short amount of time and continue to rise to the occasion.

English Department

Ryan Veltoso '10

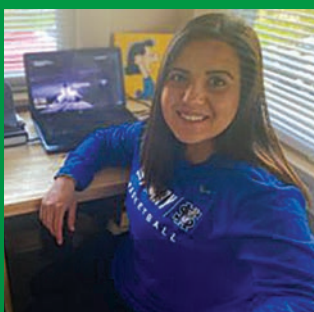

St. Mary is deeper than a job. For me, St. Mary has been my life. I started playing CYO at Saint Mary in third grade. I attended high school for four years, and returned to teach after college. Currently, I teach junior and senior English. I couldn't be happier about teaching high school students. I had amazing teachers at St. Mary. Some of them today are my coworkers. I envisioned myself as the teacher, mentor, and coach that I was privileged to have for four years. The connections I've made will last a lifetime. That is what St. Mary is all about. Our close knit community is something that we are proud of. Alums always return and we all consider ourselves family.

Science Department

Vanesa Formoso

As I began my online teaching adventure, I started to think about what we could do as a school community to make this difficult situation special and unique for our senior class. Myself, and other members of the faculty decided to create "Virtual Senior Week: Quarantined Edition." We hoped this would create memories that would last a lifetime. Throughout senior week, the faculty and staff recorded motivational video messages that were sent daily to the Class of 2020 and uploaded to the high school's website, Facebook, Instagram, and YouTube pages. The senior class' participation and response was extraordinary. Students sent in tons of their funniest pictures, scavenger hunt entries, college acceptances, and more to be shared with the entire SMHS community through our social media channels.

Physical Education Department

Jamie LoBue

Distance learning for Physical Education class has been a blessing and a curse. A curse because I miss the George Vuyosevich gymnasium and teaching students games, activities and skills. But a blessing because I have been able focus on a teaching philosophy of mine. My goal every year is to instill in students a love for life long physical activity, and self-discipline in completing daily workouts. In addition to Physical Education class, Exercise Club has been running two days each week. We meet on Google Meets and work out together with the same exercise routines. At the end of each session, we discuss our mental health status, the work outs and life in general while social distancing and staying home. It's a little escape for all of us and great way to connect through physical activity.

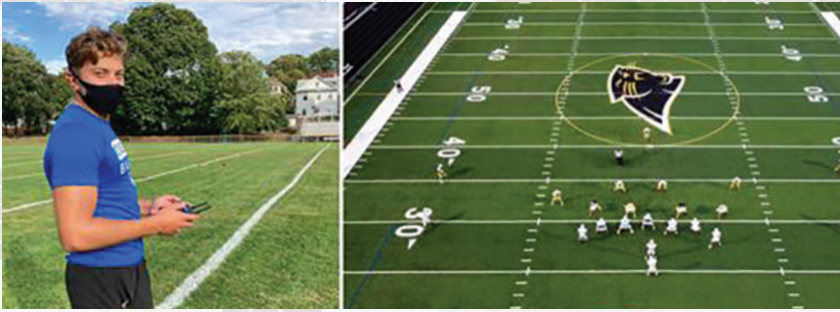

Art Department

Jennifer Walk-Downs

My art students have explored art history, photography, and continue their weekly sketch assignments. However now, they are presenting their artwork to the class virtually. For their current assignment, my students are constructing 3D Houses out of recycled materials. Since students might not have any basic materials, I created a fun tutorial video about how to build their structures without scissors, tape, glue, or any other type of adhesives. My Graphic Design students do not have access to Photoshop, but that doesn't stop them! Whether on their laptops, tablets, or smart phones, my students are creating wonderful projects using free online design and animation programs.

DRONES COME TO ST. MARY

It started with a phone call from alumnus Angelo Racaniello, MD, class of 1974, inquiring how his alma mater was doing dealing with Covid 19. As a former SM football and basketball athlete, he next inquired how the football team was doing, and how could he help?

Coach Gentile had told me about the latest video equipment used for evaluating and teaching student athletes: DRONES! Cutting edge technology for athletics! Thanks to Dr. Racaniello, the drones were purchased and used that day at practice.

Now who should operate the drones? How about a student from Mr. Tousignant engineering class? The inquiry was met with tremendous excitement from both Mr. Tousignant and all his students. Each student takes a turn volunteering when needed at practice and/or games. The hands on experience is a tremendous plus for our engineering students. The buzz around school has everyone wanting to sign up for engineering class!

One alumnus, one call, an entire school impacted in both the classroom and playing field.

— Mike Sheridan, Alumni Director

STEM ENGINEERING AND DRONES

The 2020-2021 school year has had unprecedented challenges. One very generous Alumnus has given SM brand new tech tools that will directly benefit SM's academics and athletics programs: drones. Thank you Dr. Angelo Raccaniello for making this incredible impact on SMHS.

For the STEM Engineering Department at Saint Mary High School, the new challenges are accentuated by the fact that hands-on and group centered activities are

especially tricky in this type of educational environment. This new venture will team up the department with the football program to provide our senior Engineering students the opportunity to learn first-hand how to operate unmanned videographic drones to collect game tape and aerial views of games, practices and events. This data will be used by the football team in each week's preparations for the next opponent.

The implementation of these drones into our STEM Engineering curriculum is a welcome addition to a curriculum that thrives off the ability to work together in groups. Essential components include teamwork, patience and coachability. I think that with these generous gifts, the STEM Engineering program at St . Mary will continue to develop creativity, innovation, and critical thinking skills of the 21st Century.

— Ken Tousignant, Engineering Teacher

NEW ALUMNI SCHOLARSHIP FUNDS

Joan Wieser Mazor '64 Memorial Scholarship

The Joan Wieser Mazor '64 Memorial Scholarship, established by the Mazor family, has been created to honor Joan Wieser, a graduate of St. Mary High School.

Joan was a special woman who valued family, service to others, her Catholic faith and education. This dedication to others was manifest early in life through her activities with the Girl Scouts of American and the 4-H club.

After graduating from Marywood College, Joan became a Social Worker and worked with the neediest children in Paterson.

Martin McGonigle '59 Memorial Scholarship

Marty McGonigle, Class of 1959, was a proud SM alumnus. An active member of our Alumni Board of Directors, Marty's genuine love for SM was evident at every meeting and every event the Board sponsored. He was a source of endless energy and brilliant ideas that benefited SM.

Marty generously sponsored many families who needed financial assistance to attend our alma mater. It is only fitting that we honor our fellow alum with a memorial scholarship in his name. Let us carry on Marty's altruism by continuing to support families in need of aid through the Marty McGonigle Scholarship.

Al and Audrey Bostory Memorial Scholarship

Al and Audrey Bostory both loved Saint Mary's. Audrey taught 5th grade for over 20 years. Al was an usher at Saint Mary Church and a Grand Knight for the Knights of Columbus Regina Council in Rutherford.

I still run into people today that remember being in my Mom's classroom and learning English composition and diagramming sentences.

The Bostory family hopes this scholarship helps students attend SMHS and create life long memories and get off to a great start in life.

Lou Bonora '66 Memorial Scholarship

St. Mary High School is proud to announce the establishment of the Louis Bonora '66 Memorial Scholarship. The creation of this memorial scholarship will go towards helping to offset the cost of tuition for St. Mary High School students. Lou was a New Jersey State Hall of Fame Girls Basketball Coach who came back to coach his alma mater in 2010. Lou was loved by his classmates and served the SM alumni office as a class representative.

WAYS OF GIVING

People support a cause or institution because they believe in its mission and purpose. St. Mary's donors support the school because they believe in the quality of education provided and the flexibility it maintains in order to respond where needs and opportunities are greatest.

St. Mary's keep donors' needs in mind by offering a number of giving options. Unrestricted gifts made to the school go into the general fund and are spent at the discretion of the administration to be used where needed most. Restricted gifts may also be made for a variety of purposes.

The desire to give, investment opportunity, and the impact of federal and state taxes are three considerations that should be kept in mind when planning a gift. The magnitude of a gift can vary considerably depending on timing, type of gift, and vehicle used.

All departments, financial aid programs, the library, and athletics have needs and projects to explore.

- **Cash:** Cash giving remains the most used and the most feasible giving method.
- **Matching Gift:** Many businesses and corporations have a policy in which they will match an employee's donation.
- **Appreciated Securities:** Making a gift of stocks, bonds, money market or mutual funds, they are easy to transfer and currently offer favorable tax benefits.
- **Tangible Personal Property:** These "gift-in-kind" investments are encouraged at any time.
- **Bequests:** A gift through a will can help St. Mary's meet these needs for the future.
- **Alumni Memorial Fund:** Contributions to this fund are used for student financial aid.
- **Memorials:** This special form of commemorative giving allows the donor to remember someone the donor admires, respects, loves or wishes to honor on a particular occasion.
